

COIN THE SILVER BULLION.

Representative Annerman of Pennsylvania has introduced a bill which provides for the issue of \$75,000,000 in bonds, redeemable in coin at the option of the Government after ten years, the proceeds of the sale of the bonds to be applied to the payment of the deficiency in the United States Treasury.

As a substitute for this measure it is suggested by the Denver News that a bill for the coinage of the silver bullion now stacked up in the Treasury vaults be passed, the coins to be paid on pensions and thus put in circulation among the people.

Under the rulings of the Secretary of the Treasury the notes issued for silver bullion are redeemed in gold, and much of the gold taken out of the sub-Treasury in New York for export to Europe is in exchange for these notes. The notes are redeemable in gold or standard dollars at the option of the Government, but the Secretary of the Treasury invariably redeems them in gold because to do otherwise would necessitate the coinage of more standard dollars, and the Administration is opposed to that.

The are 130,000,000 ounces of silver in the Treasury, the coinage value of which is \$162,000,000. This silver is not represented in the circulation because the Treasury notes issued to pay for it have been nearly all redeemed in gold. Why then not coin it and make money plentiful by paying out the coins for pensions or other Government obligations instead of increasing the public debt by issuing more bonds? If pensions were paid in silver it would get standard dollars into circulation and keep the mints, which are just as expensive as they are now run, busy all the time coining dollars. It would also save the public the payment of interest on bonds and be more satisfactory to everybody but the goldbugs. The efforts of the Government ought to be conducted for the benefit of the masses, not for privileged classes, and an excellent way of inaugurating the needed reform would be to coin the bullion stored in the Treasury and get the coins into circulation.

No bill providing for the issue of Government bonds should be permitted to pass Congress until every bar of bullion stored in the Treasury vaults is coined, and no such bill will be passed if the Government is conducted in the interest of the people and not for Wall Street money lenders.

THE TELEGRAPHERS' STRIKE.

Business is almost at a standstill on the Rock Island road, which extends from Chicago west through Illinois, Iowa, Nebraska and Kansas. At Chicago the sidetracks are blocked with freight cars, and further west passenger trains are running on orders from station agents. The telegraphers on the Rock Island are out on a strike and new men cannot be found to take their places.

The strike was caused by the refusal of the officials of the road to confer with a committee of Railway Telegraphers, the members of which have been trying to arrange a scale of wages and certain changes in working hours with the officials. There is no great difference on those points between the officials and the operators, but the committee was appointed by the Railway Telegraphers, not by the operators in the employ of the railroad company and for that reason the officials of the road will not recognize it. The officials say they will treat with the operators employed on the road but will not have anything to do with the Order of Telegraphers. The action of the officials precipitated the strike and the result is almost a total suspension of business on the road as trains cannot be moved with safety unless telegraphic communication is kept up between stations.

In Iceland, a nation of 73,000 people, men and women are in every respect political equals; governed by representatives elected by men and women. The mothers teach the future citizens; and in all of Iceland there is not an illiterate after the age of seven; there are no prisons, no police, no thieves, no plunders, no miserably poor—but a plain, temperate, chaste, educated and intelligent people.

Harter of Ohio has introduced a bill for the establishment of a uniform customs upon sugar and the abolition of bounties upon sugar. It provides that after February 1st a duty of half a cent a pound shall be levied on all grades of sugar imported, and the payment of all bounties shall cease. Under the old tariff law the average duty on imported sugar was about two cents per pound.

The El Paso Silver Convention resolved that: "We demand of Congress restoration of a double or bi-metallic standard by the immediate passage of a bill for the free and unlimited coinage of silver at a ratio not to exceed 16 to 1 of gold, the silver coined to be full tender for all debts whatsoever."

General Manager Dodge of the Rio Grande Western informs the Salt Lake papers that the report that the Southern Pacific had secured control of his road was without the slightest foundation.

TELEGRAPHIC NEWS

Matters of Interest From Home and Abroad.

Congressional.

WASHINGTON, Dec. 9.—The House adopted an amendment to the rules to provide for business coming over unfinished from one session of Congress to the next. It may be considered immediately.

The following committee appointments were announced by the Speaker: Judiciary, Fellows of New York; Public Buildings and Grounds, Bretz of Indiana; Enrolled Bills, Scott of Illinois; Naval Affairs, Brown of Maryland; Military Affairs, Gorman of Michigan; Education, McLaughlin of Ohio; Invalid Pensions, Cannon of New Jersey; Militia, Sipe of Pennsylvania; War Claims, Ulbrich of California; Expenditure in Post Office Department, Sipe of Pennsylvania.

These appointments were made to fill vacancies on account of the death of members and on account of resignations from committee membership of the following gentlemen: Bacon of New York, from the Judiciary; Scott of Illinois, from War Claims; Gorman of Michigan, from Expenditure on Post Office Department; Bretz of Indiana from Education.

Consideration of the Senate bill with the House amendments, relative to public printing and binding was resumed. A motion to recommitt it was withdrawn and the vote by which the bill was ordered to its third reading was reconsidered. The clause relating to the office of Superintendent of Public Documents was stricken out and the bill as amended was passed.

A petition for the repeal of the Geary Chinese Act from citizens of Massachusetts was presented and ordered printed.

The Committee on Military Affairs of the House has completed its annual military appropriation bill. It makes a total appropriation of \$24,202,839 or \$861,706 less than for this year, and \$1,720,216 less than was estimated.

Williams of Massachusetts introduced in the House a bill for the discontinuance of silver purchases after February 1st next, and setting aside as a trust fund the money received by the treasury for redemption of national bank notes, which by the Sherman law of 1890 made it a "miscellaneous receipt."

Adjourned till Monday.

Riot Over a Woman.

SPRINGFIELD, Wash., Dec. 9.—A riot occurred at Wenatchee last night and for three hours the town was in the control of a mob of frozen railroad graders and Indians. Wenatchee is about 100 miles west on the Great Northern road. The trouble started by a drunken railroad man named Tom Gulland, who has been in the habit of coming to town to carouse every day. On these occasions he stopped with a woman known as Sussette. This woman for a month past has been living with Giuseppe Vaco, a fare dealer, who is a sort of boss among the Italians, of whom there are great numbers on the road.

A work ago Gulland came to town and yesterday he succeeded in breaking Vaco's fare bank. Sussette heard the news and said she would go with the man who had luck. Vaco threatened to kill her. Gulland knocked him down and started off with the woman. Before they had gone a block Vaco and a dozen other Italians were upon them and a fierce fight ensued. The screams of the woman and the shouts of Gulland soon brought the gang of graders to the rescue. Thereupon Vaco summoned more Italians and a pitched battle was soon in progress. Railway men gathered in a group with Gulland and the woman in the center and began to retreat slowly, firing as they went and calling for help. They made a stand when the Italians pressed them closely, but eventually the superior armament of the graders, most of them having revolvers, saved them. Many, however, were badly out by knives and wounded by stones. Both parties gradually broke up into small bands. Gulland and the woman were spirited away. Fighting between the small parties continued until daylight. No definite statement as to the number of wounded in the fight has yet been obtained.

LATK.—To-night it is learned that about a dozen men were injured, but none fatally.

Senator Jones to Close the Debate.

BUFFALO, Dec. 9.—It is expected that Senator Jones will wind up the debate in the Monetary Conference Tuesday with an important declaration.

Regret has been expressed the past few days that Rothchild's proposals were completely withdrawn, as it was felt they would have formed a basis for a temporary compromise, if an understanding with regard to the chief objection of the Americans—the price at which silver should be purchased—could be arrived at. A scheme on similar lines may yet be adopted, in which event the conference will adjourn until May.

Belgian Prime Minister Bernart emphatically denies that he declared the Conference practically a failure.

What Commissioner Baum Wants.

WASHINGTON, Dec. 6.—Representative Enloe, who assisted in conducting the prosecution in the investigation into the charges against the administration pension office, has returned to Washington. It will be remembered that a majority of the committee reported a resolution reciting the judgment of the House that Commissioner Baum should be removed from office by the President. The report was not considered by the House at the last session, and Enloe wants to push it now. He also thinks some action should be taken by Congress that will result in lopping off from the pension rolls the names of a great number of persons which have no right to be there.

Freight Rates on Unfinished Furniture Reduced.

WASHINGTON, Dec. 9.—The Interstate Commerce Commission to-day announced its decision in the case of the Potter Manufacturing Co. against the Chicago & Grand Trunk Railway Co., the Atchafalaya, Topeka & Santa Fe Railway Co. and the Southern Pacific Company. The complaint was preferred by a manufacturer of furniture at Lansing, Michigan, and was in substance that the rate charged by the defendant railway companies for cheap bedroom furniture shipped by complainant in an unfinished condition, was the same as bedroom sets finished, which adjustment of rates, it was contended, effected an unjust discrimination against complainant. The commission sustains the contention and find that equal rates on unfinished and finished articles cannot be justified. Considering the relative value and cost of service and other elements which are proper to be considered in making rates, the order of the commission is that the rate on unfinished bedroom sets should not exceed 35 per cent of the rate on finished sets. The defendants were ordered that so long as a \$1.30 rate exists on finished sets that they make a rate not exceeding \$1.10 on unfinished sets from Lansing to Emory, California.

To Choose the President by Direct Vote.

WASHINGTON, Dec. 9.—The proposition to choose the President by direct vote of the people promises to meet with more than usual consideration by the Committee on Election, the President and Vice President and Representatives in Congress. The committee had a meeting to-day. At the last session of Congress Springer introduced a joint resolution providing for a Presidential and Vice Presidential term of six years with the ineligibility of the incumbents to re-election and also provides a scheme for electing them by a direct vote of the people. Springer addressed the committee to-day and was followed by Col. McClure who endorsed Springer's sentiments. Representative Belt, holdover of Pennsylvania introduced a resolution in the House a few days ago which has for its object the election of a President and Vice President by a direct vote of the people and this was referred to the sub-committee.

Could Expect Nothing Else From Them.

WASHINGTON, Dec. 9.—Treasury officials attach no special significance to the dispatches from Denver in regard to the panic condition of the silver mining interests of Colorado. The fact that many small mines are being abandoned is taken to indicate simply that they are played out and can no longer be worked at a profit. It is held that the recent depreciation of silver in the London market, and the predicted failure of the International Conference to advocate a more liberal use of silver as money can have no direct bearing on the present situation in Colorado, for the reason that silver has risen in value within the past few days. The Treasury department is paying half a cent more than Wednesday.

Two Men Killed and One Wounded.

FLAGSTAFF, ARIZ., Dec. 9.—Yesterday at Snowflake, in Apache county, forty miles south of Holbrook, Charles L. Flake and James M. Flake attempted to arrest Tom Taylor. Taylor killed Charles Flake and wounded James, who in turn killed Taylor. The flakes are merchants and leading members of that section. Taylor was a desperado and recently robbed a bank at San Marcial, and was wanted at other places for crimes committed.

A Rich Place Found.

FLAGSTAFF, A. T., Dec. 9.—Great excitement exists here and along the line of the Atlantic & Pacific railroad of the report of the discovery of rich placers near the mouth of the San Juan river in Utah 175 miles northeast of here. Five hundred citizens from Flagstaff, Williams and Winslow have left for the scene of the placers, which are said to extend for 50 miles from the mouth of the San Juan, and 200 locations have been made.

A Conference Will Be Held.

WASHINGTON, Dec. 9.—The strong pressure being exerted by the Territories makes it now probable that a joint conference of Democratic Senators and Representatives will be held within a few days to determine the steps to be taken by the party in the two Houses in relation to the admission of the Territories into the Union.

Silver Purchases.

WASHINGTON, Dec. 9.—The Treasury Department to-day purchased 400,000 ounces of silver at \$0.8405 @ \$0.8410.

A Nest Scheme, But Unsuccessful.

SAN FRANCISCO, Dec. 9.—This afternoon a young man with a small box under his arm walked into a Kearney street pawnshop and, applying a lighted end of a cigar to what appeared to be a fuse, announced that the box contained dynamite and unless he was given all the money in the establishment he would blow it to pieces. Duncan McNease, the cashier, drew a revolver and the man weakened. He dropped the box and started to run, but was overhauled and turned over to the police. The box was carefully opened, but was found to be empty, with a piece of common rope sticking out to imitate a fuse. The man, who gives the name of George Johnson, says he was without money and desperate and took that means to make a raise. He came here from Los Angeles.

San Francisco Races.

SAN FRANCISCO, Dec. 9.—One mile—Marigold won, Gladiator second, Fannie F third. Time 1:46.

Nine-sixteenths—Nell Flaherty won, Jack the Ripper second, Jim R third. Time 56 seconds.

Six furlongs—Minnie Elkins won, Tyrone second, Elaire third. Time 1:18 1/4.

Half mile—St. Croix won, Little Tough second, San Felipe third. Time 51 seconds.

Fifteen-sixteenths—Cyclone won, Regal second, Sympathies third. Time 1:39.

The New Era says: "The 5,000 head of cattle feeding on the Big Meadows of the Humboldt, when loaded in cattle cars, will require eleven trains, of 250 cars, pulled by eleven engines, to transport to Wadsworth, and from there twenty-two locomotives will be put in service to Summit.

Rabbits, deer and fat, are numerous in the vicinity of Lovelocks. The New Era says there is every reason to believe the little bunnies will be as much of a nuisance as prior to the winter of '89-'90, when they nearly disappeared from disease and the weather.

Mormon tradition says one of the pioneer saints found a wonderfully rich gold mine near Salt Lake several years ago, but Brigham Young would not permit the discoverer to work it nor to tell where it lay. Prospectors are now ransacking the country for it.

BORN.

BROWN.—In Lovelock, November 30, to the wife of Justice A. C. Brown, a nine-pound daughter.

MARRIED.

MERRIN.—DUNFORTH.—In Reno, December 7, 1892, by J. J. Jann, J. P., Charles Merrin and Ethel Dunforth.

HOOD'S COMPOUND EXTRACT OF SASSAPARILLA

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health. At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla.
